Conduct of Privacy Impact Assessment

P.I.A.

THEME: “Data Privacy Awareness Seminar-Workshop”
August 18, 2017
CHED – National Capital Region
CP Garcia Ave., UP Campus, Diliman, Quezon City

Dr. Rolando R. Lansigan
Chief, Compliance and Monitoring Division
National Privacy Commission (NPC)
THE FIVE PILLARS OF COMPLIANCE
Commit to Comply: Appoint a **Data Protection Officer (DPO)**

Know Your Risk: Conduct a **Privacy Impact Assessment (PIA)**

Be Accountable: Create your **Privacy Management Program** and **Privacy Manual**
Demonstrate Your Compliance: Implement your privacy and data protection (PDP) measures.

Be Prepared for Breach: Regularly exercise your Breach Reporting Procedures (BRP).
How to Conduct a **Privacy Impact Assessment**
What is PIA?
- A privacy impact assessment (PIA) is a tool for identifying and assessing privacy risks throughout the development life cycle of a program or system.
- A privacy impact assessment states what personally identifiable information (PII) is collected and explains how that information is maintained, how it will be protected and how it will be shared.

A PIA should identify:
- Whether the personal data being collected complies with legal requirements of the DPA
- The risks and effects of collecting, maintaining and disseminating PII.
- Protections and processes for handling information to alleviate any potential privacy risks.
- Options and methods for individuals to provide consent for the collection of their PII.

Stages of PIA
- Stage 1: Initial Screening
- Stage 2: PIA
- Stage 3: Final Report and Sign Off
Assign the Roles

• In your teams, assign the following roles:
  – Head of the Organization
  – Process Owner
  – Data Subject
  – Legal Officer
  – ICT Officer
  – DPO
  – Civil Society
  – HR
  – National Privacy Comm.
<table>
<thead>

<th>Case Study C</th>
<th>Case Study D</th>
</tr>
</thead>
</table>
| **Closed Circuit TV**<br>In an effort to reduce criminality in the barangay, barangay officials decide to install high-definition CCTVs at critical locations in the neighborhood.  
To save costs, the cameras were connected by wi-fi to the cable TV network in the area and feed into a data center in the barangay hall.<br>Some hackers took over one of the cameras and used it to film an intimate moment with another neighbor. This footage was broadcast on pornographic website. | **Feelings Graph**<br>In order to test a new feature in its smartwatch, a company ordered all 500 of its employees to wear the new smartwatch 24 x 7.<br>The new feature collects information on heartbeat and skin temperature at any given time, e.g. when talking to the boss, or while having merienda with a co-employee.<br>The resulting “Feelings Graph” is then posted to a social media site where the wearer can attach captions to specific events on the graph to explain what was happening on key portions of the graph. | **Email Invitation**<br>A church worker collected emails of church-goers interested to participate in a seminar on alcoholism and drug-abuse self-rehabilitation. These seminars are conducted once a month.<br>An email blast was sent displaying all the emails of the persons who were invited or expressed interest. One of the invited seems to be a known celebrity, and another seems to be an LGU member.<br>The list is leaked to the press, and speculation about the identities becomes a trending topic on Twitter. |
Case Study A

Vaccination Program

The Department of Health requires those who participate in the Libreng Bakuna Program to sign up using forms provided for the purpose by the DOH.

The forms indicated that the participants must enter their name, age, address, name of child, proof of billing/residence, government-issued identification details and photo.

The sheets will be kept in a folder in the office of the Barangay Health Officer. Around one hundred families plan to avail of the free vaccination.
STAGE 1 – Initial Screening Questions

Answering “Yes” to any of the screening questions below represents a potential IG risk factor that will have to be further analyzed to ensure those risks are identified, assessed and fully mitigated.

<table>
<thead>
<tr>
<th>Q</th>
<th>Category</th>
<th>Screening question</th>
<th>Yes/No</th>
</tr>
</thead>
<tbody>
<tr>
<td>1.1</td>
<td>Identity</td>
<td>Will the project involve the collection of new information about individuals?</td>
<td></td>
</tr>
<tr>
<td>1.2</td>
<td>Identity</td>
<td>Will the project compel individuals to provide information about themselves?</td>
<td></td>
</tr>
<tr>
<td>1.3</td>
<td>Multiple organizations</td>
<td>Will information about individuals be disclosed to organizations or people who have not previously had routine access to the information?</td>
<td></td>
</tr>
<tr>
<td>1.4</td>
<td>Data</td>
<td>Are you using information about individuals for a purpose it is not currently used for, or in a way it is not currently used?</td>
<td></td>
</tr>
<tr>
<td>1.5</td>
<td>Data</td>
<td>Does the project involve using new technology which might be perceived as being privacy intrusive for example biometrics or facial recognition?</td>
<td></td>
</tr>
<tr>
<td>1.6</td>
<td>Data</td>
<td>Will the project result in you making decisions or taking action against individuals in ways which could have a significant impact on them?</td>
<td></td>
</tr>
<tr>
<td>1.7</td>
<td>Data</td>
<td>Is the information about individuals of a kind particularly likely to raise privacy concerns or expectations? For example health records, criminal records, or other information that people are likely to consider as private?</td>
<td></td>
</tr>
<tr>
<td>1.8</td>
<td>Data</td>
<td>Will the project require you to contact individuals in ways which may find intrusive?</td>
<td></td>
</tr>
</tbody>
</table>

If you have answered “Yes” to any of the questions please proceed and complete stage 2. If “No”, proceed to stage 3 and sign off.
**PROCESS OWNER:** As the owner of this process, I have called this meeting today to conduct a privacy impact assessment. To get all of us on the same page, let us review the following:

1. **What data is being collected by this process (list all, including personal as well as non-personal)?**
2. **Which data (if any) is considered sensitive personal information (underline these):**
   - Name of resident,
   - Age,
   - Address,
   - Proof of residence,
   - Government-issued identification details and photo,
   - Full name of child.
3. **Who are we collecting this data from?**
4. **How are we collecting this data?**
5. **Why is this data being collected?**
6. **Will we use this data to make any decisions that have a legal effect on the data subject?**
   - To provide vaccination benefit.
   - If not a valid resident, benefit will not be provided.
7. **Who will be handling and accessing this data?**
8. **Will the data be shared with any other organizations?**
   - Rural health worker
   - Shared with DOH (for monitoring and budgeting)
9. **What is the key benefit/s the data subject gets from this process?**
10. **What is the key benefit/s for the community or society?**
    - Free vaccination
    - Reduction of diseases
**LEGAL OFFICER:** As the legal officer, I need to ensure that what we are doing is legally allowed and in compliance with the Data Privacy Act of 2012. Let us review the following:

<p>| | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>1. What is the legal basis for collecting this data</td>
<td></td>
</tr>
<tr>
<td>2. Are we over-collecting</td>
<td></td>
</tr>
<tr>
<td>3. How will consent be obtained</td>
<td></td>
</tr>
<tr>
<td>4. Do individuals have the opportunity and/or right to decline to provide data</td>
<td></td>
</tr>
<tr>
<td>5. What happens if they decline</td>
<td></td>
</tr>
<tr>
<td>6. How will the data collected be checked for accuracy</td>
<td></td>
</tr>
<tr>
<td>7. How will data subjects be allowed to correct errors, if any</td>
<td></td>
</tr>
<tr>
<td>8. Will the data be re-used</td>
<td></td>
</tr>
<tr>
<td>9. How</td>
<td></td>
</tr>
<tr>
<td>10. How long are we required to keep the data</td>
<td></td>
</tr>
<tr>
<td>11. How do we plan to dispose of the data</td>
<td></td>
</tr>
</tbody>
</table>
**DATA SUBJECT:** As one of those whose data is being collected by this process, I have certain fears and concerns about the impact of this process on my data privacy. Allow me to express these:

<table>
<thead>
<tr>
<th>Question</th>
<th>Difficulty to Identify (1-4)</th>
<th>Impact (1-4)</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. How easy would it be to identify me if this data were to be breached</td>
<td>1: virtually impossible</td>
<td>1: slight inconvenience</td>
</tr>
<tr>
<td>or exposed?</td>
<td>2: difficult but possible</td>
<td>2: stressful inconvenience</td>
</tr>
<tr>
<td>2. What things might happen if someone unauthorized gets this data</td>
<td></td>
<td>3: major difficulties</td>
</tr>
<tr>
<td>3. How might this happen (describe scenario/s)</td>
<td></td>
<td>4: extreme consequences</td>
</tr>
<tr>
<td>4. How much damage would this cause me (on a scale of 1 to 4)</td>
<td></td>
<td></td>
</tr>
<tr>
<td>5. What things might happen if someone alters or changes my data</td>
<td></td>
<td></td>
</tr>
<tr>
<td>6. How might this happen (describe scenario/s)</td>
<td></td>
<td></td>
</tr>
<tr>
<td>7. How much damage would this cause me (on a scale of 1 to 4)</td>
<td></td>
<td></td>
</tr>
<tr>
<td>8. What things might happen if this data suddenly becomes unavailable</td>
<td></td>
<td></td>
</tr>
<tr>
<td>9. How might this happen (describe scenario/s)</td>
<td></td>
<td></td>
</tr>
<tr>
<td>10. How much damage would this cause me (on a scale of 1 to 4)</td>
<td></td>
<td></td>
</tr>
<tr>
<td>11. What things might happen if this data is used for other purposes</td>
<td></td>
<td></td>
</tr>
<tr>
<td>12. How might this happen (describe scenario/s)</td>
<td></td>
<td></td>
</tr>
<tr>
<td>13. How much damage would this cause me (on a scale of 1 to 4)</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
**MAYOR/CEO/HoA**: Allow me to recap the discussion so far:

<table>
<thead>
<tr>
<th>Given this process</th>
<th>Vaccination Program</th>
</tr>
</thead>
<tbody>
<tr>
<td>With legal purpose</td>
<td>DoH Regulation</td>
</tr>
<tr>
<td>Providing this benefit (H/M/L)</td>
<td>High</td>
</tr>
<tr>
<td>Which collects this data</td>
<td>name, age, address, name of child, proof of billing/ residence, government-issued ID, photo</td>
</tr>
<tr>
<td>With identification level of (1-4)</td>
<td>4</td>
</tr>
<tr>
<td>The privacy risks that may lead to level 3 or 4 damage are as follows</td>
<td>Alteration of integrity, Loss of availability</td>
</tr>
<tr>
<td>Overall privacy risk (H/M/L)</td>
<td>High</td>
</tr>
</tbody>
</table>
**ICT/Developer:** In order to design and implement the system properly, I need to understand the system requirements. Help me to answer the following:

<table>
<thead>
<tr>
<th>Statement</th>
<th>T</th>
<th>F</th>
<th>D</th>
</tr>
</thead>
<tbody>
<tr>
<td>The system will process personal data of Filipino nationals.</td>
<td>T</td>
<td>F</td>
<td>D</td>
</tr>
<tr>
<td>The system will process personal data of citizens of other countries.</td>
<td>T</td>
<td>F</td>
<td>D</td>
</tr>
<tr>
<td>The total no. of data subjects whose records we will store is more than 250.</td>
<td>T</td>
<td>F</td>
<td>D</td>
</tr>
<tr>
<td>The total no. of data subjects whose records we will store is more than 100,000.</td>
<td>T</td>
<td>F</td>
<td>D</td>
</tr>
<tr>
<td>We process personal data on paper and other media such as microfilm, microfiche.</td>
<td>T</td>
<td>F</td>
<td>D</td>
</tr>
<tr>
<td>We process personal data using digital media such as hard disks, CDs, and servers.</td>
<td>T</td>
<td>F</td>
<td>D</td>
</tr>
<tr>
<td>The personal data is used to make decisions with legal effect about the data subject.</td>
<td>T</td>
<td>F</td>
<td>D</td>
</tr>
<tr>
<td>The personal data that we process is scattered over several geographical sites.</td>
<td>T</td>
<td>F</td>
<td>D</td>
</tr>
<tr>
<td>The personal data will be accessed by users outside of our organization.</td>
<td>T</td>
<td>F</td>
<td>D</td>
</tr>
<tr>
<td>The personal data will be accessed by users from other parts of the world.</td>
<td>T</td>
<td>F</td>
<td>D</td>
</tr>
<tr>
<td>The personal data will be accessed by programs not developed by us.</td>
<td>T</td>
<td>F</td>
<td>D</td>
</tr>
<tr>
<td>The personal data must be accessible 24 hours a day, 7 days a week.</td>
<td>T</td>
<td>F</td>
<td>D</td>
</tr>
<tr>
<td>The data and the system can be located in the premises of a service provider.</td>
<td>T</td>
<td>F</td>
<td>D</td>
</tr>
<tr>
<td>There is a sub-second response time requirement for access to our data.</td>
<td>T</td>
<td>F</td>
<td>D</td>
</tr>
<tr>
<td>The number of people who will have access to the personal data is more than 50.</td>
<td>T</td>
<td>F</td>
<td>D</td>
</tr>
<tr>
<td>The number of people who will have access to the personal data is more than 250.</td>
<td>T</td>
<td>F</td>
<td>D</td>
</tr>
<tr>
<td>There is a high risk of natural calamity in our area.</td>
<td>T</td>
<td>F</td>
<td>D</td>
</tr>
<tr>
<td>The data we hold is considered an attractive target for hackers and identity thieves.</td>
<td>T</td>
<td>F</td>
<td>D</td>
</tr>
<tr>
<td>The data and the system must be kept on-premise and cannot be moved to the cloud.</td>
<td>T</td>
<td>F</td>
<td>D</td>
</tr>
</tbody>
</table>

**Instructions**

Encircle T (True), F (False), D (Don’t know or not sure)

**Scoring**

5 points for every T
5 points for every D

**Technical Risk**

- 0 to 35: LOW
- 40 to 70: MEDIUM
- Above 70: HIGH
**DPO**: As your DPO, I would like to support this process. However, allow me to ask the following questions:

<table>
<thead>
<tr>
<th>Question</th>
<th>Cost/Effort</th>
</tr>
</thead>
<tbody>
<tr>
<td>Is there a way we can increase the benefits provided? If yes, how?</td>
<td>M</td>
</tr>
<tr>
<td>Is there a way we can collect less data and thus reduce the exposure level?</td>
<td>L</td>
</tr>
<tr>
<td>How can we reduce the privacy risks related to someone unauthorized getting this data?</td>
<td>L</td>
</tr>
<tr>
<td>How can we reduce the privacy risks related to someone altering or changing the data?</td>
<td>M</td>
</tr>
<tr>
<td>How can we reduce the privacy risks related to the data suddenly becoming inaccessible?</td>
<td>M</td>
</tr>
<tr>
<td>How can we reduce the privacy risks related to re-using the data for other purposes?</td>
<td>M</td>
</tr>
</tbody>
</table>
**MAYOR/CEO**: As Mayor/CEO, allow me to summarize the discussion:

<table>
<thead>
<tr>
<th>Given this process</th>
<th>Vaccination Program</th>
</tr>
</thead>
<tbody>
<tr>
<td>With legal purpose</td>
<td>DoH Regulation</td>
</tr>
<tr>
<td>Providing this benefit (H/M/L)</td>
<td>High (free vaccination)</td>
</tr>
<tr>
<td>Which collects this data</td>
<td>Proof of residency</td>
</tr>
<tr>
<td>With identity exposure level of (1-4)</td>
<td>4</td>
</tr>
<tr>
<td>Overall privacy risk (H/M/L)</td>
<td>High</td>
</tr>
<tr>
<td>Technical risk (H/M/L)</td>
<td>Medium</td>
</tr>
<tr>
<td>Controls Complexity (H/M/L)</td>
<td>Medium</td>
</tr>
<tr>
<td>Overall Assessment</td>
<td>ACCEPTABLE</td>
</tr>
</tbody>
</table>
Stage 3: Final Report and Sign Off
Identified Risks, Agreed Actions and Sign Off Form.

<table>
<thead>
<tr>
<th>Privacy Issue</th>
<th>Risk to Individuals</th>
<th>Compliance Risk</th>
<th>Corporate Risk</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

What are the key privacy issues and associated compliance and corporate risks? (Some Privacy Issues may have more than one type of risk i.e. it may be a risk to individuals and a corporate risk)

Describe the actions you could take to reduce the risk and any future steps which would be necessary (e.g. new guidance)
<table>
<thead>
<tr>
<th>Risk</th>
<th>Approved Solution</th>
<th>Solution Approved by</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Describe the actions you could take to reduce the risk and any future steps which would be necessary (e.g. new guidance)

<table>
<thead>
<tr>
<th>Action to be taken</th>
<th>Date for completion</th>
<th>Responsibility for Action</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

What solutions need to be implemented?

</tbody>
</table>
Summary

- This is not the OFFICIAL way to do a PIA or PbD. There are many ways to do a PIA, such as a workshop, a workflow, a survey, an interview. (See ISO 29134)
- This SIMULATION is meant to show the ROLES that need to be included in a PIA, the CONCEPTS which must be considered, and the essential ELEMENTS.
- PIAs submitted to the NPC will be reviewed for: stakeholder involvement, thoroughness of risk analysis, and completeness of controls framework.
- After six months, we will also review status of controls implementation, as well as results of a breach drill for the process.
“Compliance to Data Privacy Act is not a one-shot initiative. It is a discipline and culture that must be embedded on a continuous basis within the organization.”

**CULTURE OF PRIVACY in the PHILIPPINES**
Thank you! Any questions?
info@privacy.gov.ph
