**TERMS OF REFERENCE
FOR THE PROCUREMENT OF NPC WEBSITE REVAMP**

I. BACKGROUND

The Public Information and Assistance Division (PIAD) is responsible for information management including publications, media representation, crisis communication, content development, stakeholder relations, social media management, website maintenance, and the provision of other public services in the National Privacy Commission (NPC).

As part of its function, specifically in website maintenance, PIAD is seeking an outsource service to revamp the NPC website.

II. PURPOSE OF THE PROCUREMENT

The main purpose of the website revamp is to enhance the existing WordPress website, create a new WordPress website theme, re-arrange the content of the website, add functionality such as Calendar of Events and Search Bar, add user management, and be more informative while using less text content.

III. TECHNICAL SPECIFICATIONS

A. Tasks of the Website Revamp Provider

- Convert an existing wireframe to a web design
- Convert the created web design to a WordPress Custom Theme
- Create any functions needed for the website such as Calendar of Events and Search Function
- Provide a Staging Server
- Migration of existing website data to the newly created WordPress Custom Theme
- Assist deployment to production server
- User and Admin Training
- Technology and knowledge transfer to Interim Management Information System Unit (iMISU) and PIAD Website Management Team (WMT).

Detailed tasks of the website revamp provider:

1. The provider must provide the website's overall design. The design will be based on the wireframe that will be given by PIAD Multimedia Arts Team (MAT). Some of the design inspiration will also be given. Also, MAT has the final say in the design so it is necessary that the provider must coordinate constantly with them to finalize the webdesign.
2. Once the web design is done, the provider must use that design and convert it into a WordPress Custom Theme. The WordPress Custom Theme must be mobile responsive up to minimum of 4-inch screen view port.
3. The provider must build all the feature/functions needed for the website. Example the feature/functions Calendar of Events, Search Functionality, etc.
4. Front-end technology for the WordPress Custom Theme must use the Bootstrap (Latest stable version), CSS, HTML5 and JavaScript. Other front-end technology, back-end technology, and third-party service or third-party plugin that may be needed to be used must be coordinated with the iMISU and WMT for clearance.
5. Once the web design and WordPress Custom Theme are done, the old website data must be migrated into the newly created WordPress Custom Theme. The migration will be conducted by the provider. The iMISU and WMT may also assist in the migration if necessary.
6. The provider must coordinate with the iMISU and WMT to assist in the deployment to production server.
7. All the source code and web design that the provider will produce for the website must be turned over to WMT, MAT, and iMISU once the production deployment is done.
8. The work deadline must be prioritized. If the provider delivered the services needed before the deadline it will be better. The provider must take note that the 1-year warranty will start after the specified work deadline.
9. The provider must provide a Staging Server that will be used for checking and debugging when presenting to the iMISU and WMT.
10. The provider must provide training on the User and Admin management.
11. The NPC is the owner and has all the rights to the source code and design or any other output that will be produced by the provider team.
12. The website design and all the elements used such as icons and other graphics must be the original work of the provider. The use of copyrighted materials in the website design will not be accepted. In case of violation of intellectual property, any and all liabilities shall be born by the provider without prejudice to the imposition of any fees and/or other charges NPC that may have. The NPC is not prohibited to avail other legal remedy.

1. The website design, icons, graphics, and other materials produced by provider must be completely turned over to the NPC and shall be owned by the Commission.
2. Upon completion of service from the provider, all data that is shared between the provider and NPC through, including but not limited to, digital, physical, email, and notes that are not owned by the provider must be deleted.
3. The provider must provide the number of people and their role working in the project. This will be discussed with the iMISU and the PIAD Website Management Team.
4. The provider must provide technology and knowledge transfer to the iMISU and PIAD Website Management Team with the goal of seamless website maintenance such as but not limited to modifying the website theme design, code review on how the website functions work, database table review for functions and any other related concerns to website overall development.
5. Before the project starts, the provider must sign a non-disclosure agreement with the NPC and must provide the project timeline that will be the basis for the payment terms.
6. The website revamp team is composed of personnel from Interim Management Information System Unit (iMISU), PIAD Website Management Team (WMT), and PIAD Multimedia Arts Team (MAT).
