NATIONAL PRIVACY COMMISSION
BIDS AND AWARDS COMMITTEE

SUPPLEMENTAL/BID BULLETIN NO. 154-2021

DATE : 06 December 2021

SUBJECT: **Internet Service Provider (ISP) – Main (Early Procurement Activity FY 2022)**

After considering the clarifications and recommendations made during the Pre-Bid Conference dated 02 December 2021 for this procurement, the National Privacy Commission – Bids and Awards Committee (NPC-BAC) hereby issues this Supplemental/Bid Bulletin clarifying provisions in the Bidding Documents, to wit:

CLARIFICATION/ QUESTION	ADDENDUM/AMENDMENT/ ANSWER
The technical specifications, specifically Section A, Items 2 and 3 state that the ISP should provide six (6) usable Public IP Addresses, including the Gateway IP Address or within /29 CIDR prefix, and should include /30 Public IP Address for point-to-point connectivity. Is there a router available to be used that's why you need two IPs?	We already have a router for the /29 IP. What we need from the ISP is the CPE that would interface with the existing router. Hence, we would need one /29 IP and one /30 LAN IP addresses. The router would be installed in the middle of these two IPs.
Item 10 of Section A of the technical specifications state that the ISP should provide a dedicated DNS server with less than 50 ms of latency. This refers to the DNS server of the service provider, correct?	Yes. The DNS server referred to is that of the service provider.

Can we submit earlier than the deadline on 14 December 2021?	Yes. Deadline of submission is on or before 14 December 2021. We highly encourage submissions earlier than the deadline.
--	--

The foregoing shall form an integral part of the **Bidding Documents for Internet Service Provider (ISP) - Main** for the National Privacy Commission. Any provision inconsistent herewith is hereby amended and superseded accordingly.

For the information and guidance of all concerned.

ATTY. MARIA THERESITA E. PATULA
Director IV, Legal and Enforcement Office
BAC Chairperson
